AS-3630 ADDRESSING SOLUTION

Technology that creates professional mailings

WE VALUE YOUR MAIL

A decorative graphic element consisting of a red and white striped ribbon that curves and folds across the bottom right corner of the page.

AS-3630

ADDRESSING SOLUTION

PRODUCTION ADDRESSING SOLUTION COMBINES FLEXIBILITY WITH EXCEPTIONAL PRINT QUALITY

The AS-3630 is a unique and versatile system that provides superior production address printing. The AS-3630 works as either a standalone address printing solution or in line with other mail processing equipment such as a folder/insertor or mailing system. Whether you're designing a new production mail environment or expanding your existing mailing operation, the AS-3630 integrates seamlessly with your existing equipment. Either way, it can be your total addressing solution.

This fixed head printer has robotic print head positioning, which remembers the address position by envelope size or print job, keeping repetitive print jobs consistent with each mail run. This unique feature reduces set up time, speeding up job turnaround. The AS-3630 can accommodate nearly any size document, providing high quality, 600 dpi address, barcode, text and graphics for a professional mailpiece every time.

The AS-3630 is perfect for both mid-size corporate environments and for production mail centers, easily meeting your needs for ultimate flexibility and tight deadlines. It is the ideal system for universities, quick printers, membership organizations, direct mail services and so much more.
